

Here's your chance to play along with *Rolf Harris*

On side 2 of the demonstration record, Rolf plays one of the tunes from our Music Books and Play along records — 'COMING THROUGH THE RYE'.

Illustrated below are three different methods of playing the STYLOPHONE that are used in our Music Books. Any of the three systems may be used, but for absolute beginners we would suggest the NUMBERS system. You can then progress to the NOTE LETTERS, and finally to actual MUSIC NOTATION.

At the foot of this page is a numbered keyplate that you can cut out and simply place over the lettered keyplate on your STYLOPHONE. Now all is ready . . .

Wait for the signal and the introduction, and away you go, following the music below.
